## **FAXMYWAY-- Fax with Confidence**

Global faxing: Send faxes to - and receive faxes from - any fax machine in the world. Easy deployment and implementation for multiple locations and platforms, company-wide.

- Local Fax Number: Establish local fax number, no phone line fees.
- E-mail based: Faxes are sent to and delivered from your existing e-mail account.
- Easy management: Manage email and fax communications and addresses from your existing desktop email application.
- Hassle free: Eliminate printing documents and the hassles of manual fax procedures.
- Multiple Formats: Faxmyway fax supports most document formats. Unbelievable but true.
- Virtual: You don't need to purchase install, or maintain any software or hardware.
- Always on: Operates all day, every day. Your computer does not have to be on to receive faxes.
- View faxes from e-mail: The attachment can be viewed from your e-mail box with a click using standard TIFF viewer (pre-installed on most PCs).
- Auto Re-send: Now no need to retry very time on getting fax line busy Failed transmissions are automatically re-attempted four times.
- Confirmation: Delivery confirmation is sent to your e-mail address.
- Low Fax Bills: It offers huge savings and billing method can be identified by user.
- Reporting: Detailed, real time reports are available on-line.
- Privacy & Security: Password protection, and integration with your e-mail, ensures privacy. All transmissions are encrypted.

# How does Faxmyway work...

## Sending and receiving fax is as easy as 1-2-3...

### Here is how you send a fax using Faxmyway

- 1 Login to your email account.
- 2 Attach fax document, write faxnumber@faxmyway.com in the "To" field, and click send.
- 3 Fax is received by the recipient instantly.

### and that is how you receive a fax using faxmyway

- 1) Sender faxes to destination number.
- 2) Fax is received as an email instantly.

### We also offer the following services:

- **PC to Fax:** PC to Fax acts like a printer on the users' PC. PC to fax will enable users to fax any document that they can print. PC to fax also provides for real-time status reporting of each fax sent on the client's PC and offers additional features such as an address book and resend capabilities.
- **Web to Fax:** Web to fax provides clients with perhaps the easiest and most convenient way to send a fax. Registered clients can simply log into their account on the Faxmyway web site, click Web to Fax, fill-in the necessary information, send and view real-time status of the fax on the web.
- **Fax Broadcast:** Fax Broadcast enables customers to send the same fax to one or a thousand or more recipients at click of the mouse from their own PC.
